--	---

Leader: Barbara Mochrie (818) 354-9550

Classification: I

Introduction: Where will you see multi-million dollar yachts parade around a multi-million dollar harbor, past multi-million dollar homes showing off their \$50,000 holiday light jobs? None other than the 92nd Annual Newport Beach Christmas Boat Parade!

Description: I've never been to this parade, so I'm sort of winging it! We have several choices, as individuals, on how we may view the parade.

1. You may bring your own Kayak or Canoe (or possibly even rent one)
2. We can buy tickets with a Charter Company (Tickets will range between \$15 & \$20 per person)
3. We as a group could rent our own boat for six adults and two children (Cost approximately \$20 per person - children will probably be free)

The parade starts at 6:30. You may join us for dinner after the parade at a spot of our choosing.

The boats will be reserved quickly, so we need to know your intentions immediately in order to get our reservation in. Please e-mail me direct with your above choice. More details will be given as time gets closer. I welcome any suggestions you may have.

Cost: Variable depending on the option selected. See description for details. Expect to contribute to for gas and parking if you are not driving to Newport.

Meet: 4:00 p.m. on Sunday, 17 December at the JPL main gate to carpool down to Newport. Parking can be difficult.
