Please be aware that if you want to see the Balloons going up in the air, you must be there very early ~ 6:00 AM. (and keep in mind that it is a 90 min drive from JPL). They do leave them blown up and tethered during the day, but they do not fly again.

I had originally planned on making this a camping trip, but I ended up with a scheduling conflict. My apologies.

There are several options we have on doing this trip.

1. We can carpool from JPL at 5:00 am
2. We can try and find a place to spend the night and be there in the morning.
3. You can go on your own and just enjoy yourself.

*If you have any questions, please call the Trip Leader.*

*Hiking + Members: Please make a copy of this flyer and post on your local bulletin board. Thanks!*
